CONSERVATION & ETHICS

We live by the proven principal of
“Conservation through sustainable utilization”

We are an African Outfitter that guides responsible safari enthusiasts in their quest to harvest various African game species that may be legally hunted. We promote the respectful harvesting of game animals in accordance with existing laws and scientifically based game management principles.

HUNTING ADVENTURES AFRICA abides by all guidelines as laid out in the Professional Hunters Association of South Africa’s Code of Conduct: *“We hunters will conduct ourselves professionally in a manner which will reflect honesty, integrity and morality. In the spirit of fair chase, the principle of sustainable utilization of our natural resources will be adhered to.”*

A typical hunting day starts at the crack of dawn after a hot coffee and a delicious breakfast. You and your professional hunter will then set out into the African bush to pursue your game. At midday we will either return to camp or enjoy a thoughtfully packed lunchbox and refreshments out in the bush. The afternoon will either be spent in pursuit of your desired trophies or relaxing at the hunting camp. After a hearty dinner we will relax and spend quality time around a campfire, re-living the excitement of the day.

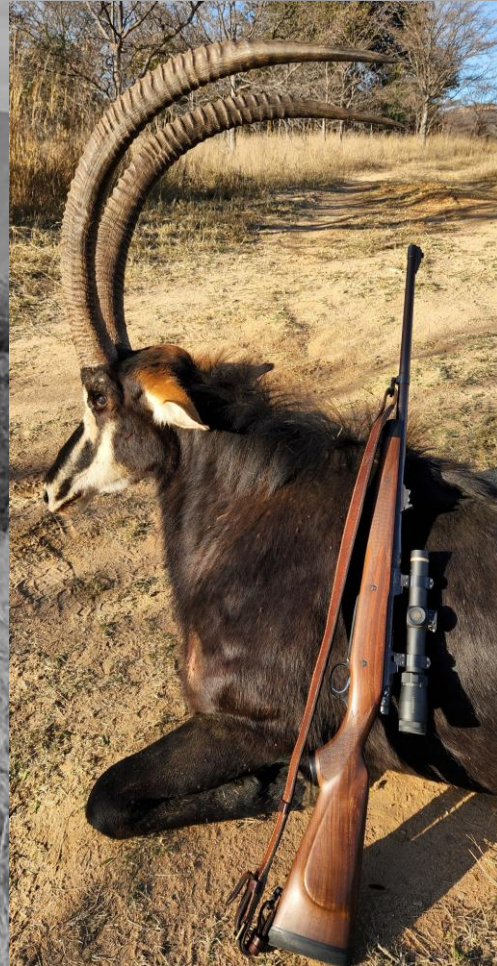

We hunt throughout the year; however, we recommend the months of March through to October. We offer both bow and rifle hunting. Our professional hunters and experienced trackers will not only ensure your safety and guide you on the best hunts in this untamed African landscape, but they will also share their knowledge of our rich and diverse country and its local people.

We are based in the Waterberg area of the famous Limpopo Province, a mere 2.5 hours' drive from OR Tambo International airport (Johannesburg). From our base camp on our hunting ranch, we have access to vast and pristine savannah bushveld hunting areas. We also offer tailor-made photo and hunting safaris throughout Southern Africa, and we strive to cater towards each client's individual needs and trophy requirements.

Andre van der Walt is the founder, outfitter and lead PH of HuntingAA. Andre grew up in a farming and game ranching environment, and he naturally developed a deep love and respect for the wild African bush. From a young age he has had a passion for hunting, and he began his professional hunting career over 20 years ago.

HUNTING ADVENTURES AFRICA is without a doubt a great choice for your African hunting adventure where we “under promise and over deliver”. Our hunting clients arrive as strangers and leave as friends, and they always return to us for their next hunting adventure...
